RE: Schreiber/Caravan Site, Detroit, Michigan

Dear Mr. Nuwabuzor:

I have received the Work Plan addendum dated June 5, 1992, for the above referenced site. The amendments complete the necessary revisions to the Work Plan, with one exception on page 7 of the QAPP. It is understood that Marine Pollution Control (MPC) will be the contractor conducting on-site removal activities. A representative from MPC will be the on-site health and safety officer, not the U.S. EPA as listed in the addendum. The Work Plan now meets with my approval, and site activities are to commence within 5 calendar business days as specified in the Order.

If you have any questions or require additional information, please feel free to contact me.

Respectfully,

Peter Guria
On-Scene Coordinator
